

LEAD NOW! Classroom Package

The LEAD NOW! Classroom Package offers a solid foundation for your organization to further build and refine the skills of your new and experienced leaders.

Designed to be practical, quick, and easy-to-use, the LEAD NOW! Classroom Package offers critical leadership skills for everyday situations. It is derived from a comprehensive leadership development model created by authors and experts John and Daniel Stewart.

The classroom package is designed to give you the flexibility to lead a session over the entire Lead Now! program or break-down the modules to cover only skills you want to instruct on. The materials can accommodate:

- On-site training
- Virtual training
- Combination of both

The package includes unlimited duplication rights of the support materials located on the DVD or USB. The complete mini-video modules, gems, lessons, and tips have been mapped to short discussions starters and learning aids.

LEAD NOW! Program

- **22 Mini-Video Modules:** narrated by John and Daniel Stewart (6 - 8 minutes each)
- **22 Leadership Lessons:** powerful stories that illustrate and support each dimension/competency
- **42 Leadership Gems:** easy-to-remember phrases supported by stories and anecdotes
- **150+ Leadership Power Tips:** additional suggestions for practice, discussion, and coaching
- **21 Individual Development Plans:** development plans with step-by-step instructions and experiential assignments
- **Options to Purchase:** self- or 360-Assessments, print or digital books, and Certification training

The LEAD NOW! method is based on:

- 50 years of leadership development and coaching experience
- 8,000 surveys from executives, managers, and employees
- A simple but powerful visual model

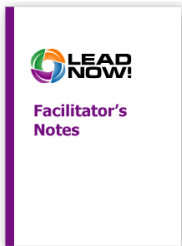

LEAD NOW! Classroom Package

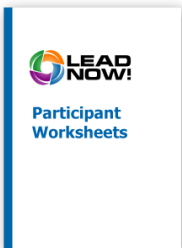

DVD or USB

Both the DVD and USB come equipped with a full menu for easy identification and use of all the materials in the Classroom Package. Choose the DVD or USB based on your organization's training and technological needs.

Facilitator's Notes

The Facilitator's Notes offer step-by-step assistance with sample agendas, exercises to engage learners, and activities to offer learners the opportunity to practice their new leadership skills. Each section has clips identified for use along with time estimates.

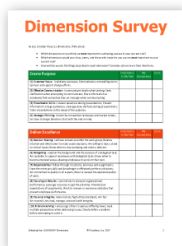

Participant Worksheets

The Participant Worksheets is the companion to the Facilitator's Notes and will enhance classroom training sessions. Learners will build their own development plans, record their thoughts to reflection questions, and take notes during small group activities.

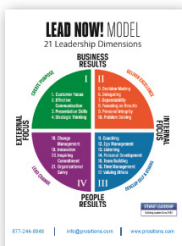

Slide Deck

The Slide Deck makes delivering this Classroom Package simple. It encompasses slides for each module and prompts activities with built-in reminders. Use all or a few of the slides to customize your training session.

Dimension/Competency Survey

Help your learners identify which leadership skill areas to work on through the use of the Dimension Survey; it uses a short and easy ranking system to show which dimensions need development. The Dimension Survey can also be used before a classroom session to pinpoint which dimensions to cover.

Desk Reference

The Desk Reference is a print-ready PDF that can be given as a job aid to each participant. It depicts the four leadership quadrants and the associated dimensions of the LEAD NOW! Model.

Classroom Package includes all the items listed on this page. Choose a DVD or USB (+\$50).
