Description:

Based on the best-selling book by Eli Goldratt, this inspiring video fosters bottom-line, team-driven commitment through real-life dramas that demystify buzzwords like "bottlenecks" and "improvement measurements." The Goal tells the story of Alex Rogo, a plant manager facing the threat of his plant's closure. The video follows Alex and his team as they use such principles as benchmarking and the theory of constraints to transform their mediocre division into a money-making machine.

How To Training Points

- How to rally your team behind the improvement process
- How to identify and eliminate system bottlenecks
- How to continuously improve and practice measurability of ideas
- How to plan for ongoing improvement
